Anbesol Liquid

Uses

Adults and the elderly: temporary relief of pain caused by recurrent mouth ulcers, denture irritation. Children over 5 months: for relief of pain and discomfort associated with teething where non-pharmacological options have failed.

Dosage

Adults and the elderly: apply undiluted to the affected area with a clean fingertip. Two immediate applications normally sufficient. The application may be repeated if necessary after 3 hours. Babies and children over 5 months: 1 application up to 6 times a day. Not to be used more frequently than every 3 hours up to a maximum of 6 applications in 24 hours.
