

# ColdZyme Mouth Spray

## Uses

Acts against the cold virus by coating the lining of the mouth and throat, creating a protective barrier and trapping the virus, deactivating it and preventing replication.

## Dosage

Suitable from 4 years. Spray 2 puffs at the back of the throat every 2 hours up to 6 times daily while exposed to virus or until cold symptoms subside.

## Format and Ingredients

Spray containing:  
Trypsin, Glycerol,
