

Blepharitis Eye Lid Foam

Uses

Helps to remove oil, debris and other contaminants found on the eyelids and eyelashes which are caused by blepharitis. The eye foam is perfume free and can easily be applied to the eyelids, to help reduce the risk of further infection.

Dosage

Close the eyes and massage the eyelids and eyelashes with the foam. Do not open the eyes during the application. Leave the foam for approximately 60 to 80 seconds and use it 2 to 3 times a day for a period of at least 7 days for maximum efficacy. After each application rinse the eyelashes and eyelids with warm water.
