Baby Earol Olive Oil Spray

Uses

To soften, break up and/or loosen earwax and prepare ear canals prior to earwax removal and ear cleaning.

Dosage

Should only be used with or after professional medical supervision and/or advice. Children from 6 months to 5 years: 1 application twice daily into each affected ear canal up to 7 days before the earwax removal procedure. 5-12 years: 1-2 applications twice daily into each affected ear canal up to 7 days before the earwax removal procedure. After ears are clear of wax, the spray can be used once a week to help keep new earwax soft and help prevent dryness of the skin in the ear canal, reducing itching and irritation.
