

Dermalex Psoriasis Treatment Cream

Uses

For the treatment of mild to moderate psoriasis symptoms, such as thickened, scaling, red and itchy skin. Suitable for use on face. Free from steroids, fragrance, tar, vitamin D3 analogues, vitamin A derivatives, sulphur, salicylic acid and artificial colouring. Not suitable for children under 14 years.

Dosage

Over 14 years: apply a thin layer of the cream 2 to 3 times a day to the affected area, ensuring the skin is clean first (avoiding the area around the eyes).
