

# Voltarol Medicated Plaster

## Uses

For local, symptomatic short-term treatment of pain in acute strains, sprains or bruises of the extremities following blunt trauma (e.g. sports injuries).

## Dosage

Adults and adolescents 16 years and over: apply 1 plaster to the painful area once daily. Maximum daily dose is 1 plaster: only 1 painful area can be treated at a time. Do not use for longer than 7 days. Elderly: Use with caution. If symptoms worsen or use is needed for more than 7 days, consult a doctor. Under 16 years: not to be used.
