

Acnecide Wash 5% w/w Gel

Uses

For the cutaneous treatment of acne vulgaris of the face, chest and back, where comedones and papules predominate.

Dosage

12 years and over: unless otherwise directed, use once or twice daily. Wet the area to be treated, apply the gel to the hands and wash the affected area with the gel. Contact time with the skin should be 1-2 minutes, followed by thorough rinsing with water and gentle drying. Using a moisturiser after application to the face can help to reduce any irritation the treatment may cause.
