

## Gaviscon Double Action Tablets

### Uses

For the treatment of symptoms resulting from the reflux of acid, bile and pepsin into the oesophagus such as acid regurgitation, heartburn and indigestion – for example, following meals or during pregnancy – and for symptoms of excess stomach acid (hyperacidity). Can also be used to treat the symptoms of gastro-oesophageal reflux during concomitant treatment with or following withdrawal of acid suppressing therapy.

### Dosage

Over 12 years: 2-4 tablets after meals and at bedtime up to 4 times a day. Chew thoroughly before swallowing. Under 12 years: only on medical advice.

### Format and Ingredients

Chewable tablet containing:  
Sodium Alginate 250mg, Sodium Bicarbonate 106.5mg,  
Calcium Carbonate 187.5mg,
