Care Chlorhexidine Digluconate 0.2% w/v Antispetic Mouthwash

Uses

For the treatment and prevention of gingivitis, oral ulceration, oral thrush and denture sores, and for oral hygiene maintenance. Available in peppermint and aniseed flavours.

Dosage

Adults, the elderly and children: using the measuring cup provided, measure 10ml of solution in the cup and thoroughly rinse the mouth for about 1 minute, twice daily, then spit out. Gingivitis: use as above for 1 month. Mouth ulcers and thrush: use as above, continuing for 2 days after symptoms have disappeared. Dental sores: use as above. Also soak dentures for 15 minutes twice daily.
