Endekay Ceplac Tablets

Uses

An aid to the teaching of efficient oral hygiene.

Dosage

Initially, use once a day. Crush 1 tablet between the teeth before cleaning them, and distribute the saliva to all tooth and gum surfaces with the aid of the tongue for at least half a minute. Spit into a bowl of running water and rinse the mouth out once or twice with water. Brush the teeth until all the red stain has been removed. Once a sound brushing technique has been established, use from time to time after brushing as a check to proficiency.
