Canesten Thrush External Cream

Uses

For the treatment of candidal vulvitis. This product should be used as an adjunct to treatment of candidal vaginitis. Can also be used to treat a sexual partner's penis to prevent re-infection.

Dosage

16-60 years: apply to the vulva and surrounding area thinly 2 or 3 times daily and rub in gently. If treating the sexual partner's penis, the cream should be applied 2 or 3 times daily. Treatment should be continued for up to 1 week after treating the internal infection in women and for up to 2 weeks in men. If symptoms worsen or do not improve within 7 days, a doctor should be consulted. Under 16 or over 60: a doctor should be consulted.
