

Repel Maximum Aerosol

Uses

Contains 50% DEET and 1% PMD for effective protection from mosquitoes for up to 8 hours from one application. Suitable for destinations with a high to medium risk of mosquito-borne diseases, such as malaria.

Dosage

Spray exposed skin evenly from a distance of 15cm. For face, neck and around ears spray into palm of hand and then apply sparingly avoiding eyes and mouth. Once daily application (maximum number of 1 second sprays): Adults: 11 sprays; Children over 12 years: 4 sprays; Children 2-12 years: 2 sprays. The product should only be applied to the face and neck by an adult. Do not apply to the hands. Do not use on children under the age of 2 years.
