Carnation Verruca Caps

Uses

Treatment of verrucas.

Dosage

Adults and children over 6 years: apply 1 every 2 days for 8 days. Once all medicated plasters are used apply protective plaster. May be repeated after 28 days if the verruca has not gone. Not to be used by diabetics. People with circulatory disorders and women who are pregnant should seek medical advice before use. Children under 6 years, or adults over 50 years, should seek medical advice before use to ensure the condition is a verruca.
