Hana 75mcg Film Coated tablets

Uses

Oral contraceptive in women of childbearing age.

Dosage

Tablets must be taken every day at the same time so that the interval between two tablets is always 24 hours. The first tablet should be taken on the first day of menstrual bleeding. Thereafter one tablet each day is to be taken continuously without taking any notice of possible bleeding. When a pack of pills is finished, a new pack should be started directly the day after the previous one.
