(GSL)

Skin Care and Antiseptics Manufacturer GALDERMA (UK) LTD Pack size 15g RRP £9.99

Topical therapy for the treatment of mild acne affecting the face.

Format and Ingredients

Gel containing:

Benzoyl Peroxide 5% w/w,

Dosage

12 years and over: before each application, the skin should be cleansed with a gentle cleanser and dried carefully. When first used, apply a thin layer of the gel once daily to the acneaffected areas of skin before going to bed. After 2-3 days, if the treatment is well tolerated, frequency of application can be increased to twice daily, in the morning and evening. The extent of any drying or peeling may be adjusted by modifying the dosage schedule. Using a moisturiser after application can help to reduce any irritation the treatment may cause.
