Unguentum M

Uses

For the symptomatic treatment of dermatitis, nappy rash, ichthyosis, eczema, and protection of raw and abraded skin areas, pruritus and related conditions where dry, scaly skin is a problem. Can also be used as a pre-bathing emollient for dry or eczema-prone skin.

Dosage

Adults and children: massage a thin application gently into the skin 3 times daily or at appropriate intervals. When used as a protective cream, apply sparingly to the affected areas before or immediately after exposure to a potentially harmful factor.
