Hana 75mcg Film Coated tablets

Uses

An oral contraceptive for women of childbearing age.

Dosage

Tablets must be taken every day at the same time so that the interval between 2 tablets is always 24 hours. The first tablet should be taken on the first day of menstrual bleeding. Thereafter 1 one tablet each day is to be taken continuously without taking any notice of possible bleeding. When a pack of pills is finished, a new pack should be started directly the day after the previous one.
